ABOUT US

We Drive Your Operations with Smart Logistics

We are a company dedicated to warehousing, logistics, distribution, maquila and the development of customized projects for the handling of goods at different strategic locations across the country. With **20 years of experience**, we support our clients with high-quality deliveries, making them more competitive in their respective markets.

We currently operate **10 nationwide warehouses** in 3 of the most important states in the country's economy.

We also have **1 warehouse on the U.S. border** to support import and export projects for our clients.

and experience.

MAGAYA SYSTEM **LIVE TRACK**

Total visibility of your inventory in **real time**, whenever you need it.

Real-time inventory.

No need to wait for inventory by email. With **Live Track** on our web platform, you'll have access to real-time information.

Check the status of your incoming shipments

directly in our system from your computer or mobile device.

We upload and attach all required documentation

for your delivery (purchase orders, certificates of quality, invoices, and more).

We specify via notes

the delivery or receipt requirements (special handling at receipt, customer name and license plates to pick up at our warehouse, etc.).

You can review the status of your order

(whether it's loaded, in transit, or delivered).

We provide photographic evidence in real time

(when received or delivered).

Platform available 24/7.

You can review quotes and invoices

for requested services.
